CONTENTS

6.1 Relevant provisions of the Statute

6.2 Miscellaneous agreements

A.6 AGREEMENTS WITH THE EUROPEAN COMMUNITIES AND WITH INTERGOVERNMENTAL OR PRIVATE ORGANIZATIONS OR INSTITUTIONS

6.1 RELEVANT PROVISIONS OF THE STATUTE

a) Article 27 of the Statute of the European School states:

"The Board of Governors may conclude with the European Coal and Steel Community any agreement concerning the School. The Community shall then have a seat on the Board of Governors and on the Administrative Board. The number of voting members of the Board of Governors and of the Administrative Board shall then be increased to seven."

b) Article 4 of the Protocol on the Setting-up of European Schools states:

"The Board of Governors may conclude any agreement concerning the establishments thus set up with the European Communities and with any other intergovernmental organizations or institutions which, by reason of their location, are interested in the operation of these establishments. They shall then have a seat and a vote on the Board of Governors on all matters regarding the establishment in question and a seat on the Administrative Board of the latter."

Any decision taken by a qualified majority in accordance with Article 10 of the Statute of the European School shall, however, be valid only if it has the approval of two thirds of the representatives of the Contracting Parties.

"All decisions concerning the financing of an establishment shall be taken unanimously by the parties represented on the Board of Governors."

c) Article 5 of the Protocol on the Setting-up of European Schools states:

"The Board of Governors may also conclude agreements with organizations or institutions governed by private law which are, by reason of their location, interested in the operation of a European School set up pursuant to this Protocol."

The Board of Governors may grant them a seat on the Administrative Board of the establishment in question.
