DATE OF THE LAST AUDIT	First audit:17-21 October 2016
<p>THE SCHOOL'S LEGAL FRAMEWORK</p> <p>With the setting up of an International School in the south of the Country, the Ministry of Education is responding to the growing heterogeneity of the pupil population. It is the government's responsibility to offer a state education system in which each and every pupil has a chance of succeeding, whatever the language spoken at home.</p> <p>The legal background was approved by the Luxembourg Parliament on 26 February 2016: <i>'Loi portant creation d'une école internationale publique à Differdange'</i>. <i>Référence Mémorial –Journal officiel du Grand-Duché du Luxembourg document A-n°27 du 4 mars 2006.</i> International education is already offered in state secondary schools in the centre of the country but that is not yet the case in the south. Now the structural development of the economy in that part of the country and, the University of Luxembourg's relocation to Belval, has given rise to increased demand for children's schooling in international classes. The availability of high-quality education is an important factor in the decision of a company, of a foreign investor or of scientific experts as to whether or not to set up in Luxembourg.</p> <p>The Differdange and Esch-sur-Alzette International School (<i>EIDE</i>) is open to both children and young people from an immigrant background and any other pupils wishing to be educated in an international context. Its priority target are the children and young people of Differdange and Esch-sur-Alzette and of the south of the country in general. Over and above efforts to integrate foreign pupils who will be remaining in the country, offering a new International School matches the needs of young people who are temporarily resident in the Grand Duchy and who are expected to continue their education and/or embark on their career in a different country.</p>
