## **Decisions of the meeting of the Board of Inspectors (Nursery and Primary)**

---

Meeting of 10 October 2017 – 9.00 – Brussels

---

### **III. D OTHER ITEMS**

#### **1. Request for a new mandate (German L1 Working Group – 0086) – 2017-09-D-17-de/en-1 – Ms SCHUMACHER**

Having completed the work done between 2013-2016, the German inspector requested a mandate to continue the German L1 Working Group for 3 additional meetings of 1,5 days dealing with the following subjects:

- Elaborations of the Attainment Descriptors for P4 and P2,
- Development of contents and setting up of a common platform for general communication between all schools.

**The BIP disagreed with the request for the elaboration of the Attainment Descriptors for P4 and P2. As a decision had been taken by the competent Boards in October 2015 concerning the elaboration of the Attainment Descriptors at the end of each cycle, the BIP regarded the request not to be in line with the documents currently in force. Such a request would need a revision of the rules in force by the Joint Board of Inspectors. As regards to the development of a common digital platform L1 German Primary for general communication, the BIP supported the request.**
