## **Joint Report of the Croatian Presidency of the Boards of Inspectors and of the Joint Teaching Committee – 2021-2022 school year**

---

Approved by the Board of Governors at its online meeting of 6, 7 and 8 December 2022 in Brussels (Hybrid)

## Introduction

During the Croatian presidency and after the challenge brought by the corona pandemic in the 2021/2022 school year the students finally returned to their classrooms, and the graduation passed without major problems in both the written and oral parts.

Meetings of all bodies slowly moved to a hybrid model, and more and more contacts and cooperation were face to face.

During the last year, a number of changes took place in the administration of the European Schools. The new Secretary-General Mr. Andreas Beckmann and the new Deputy Secretary-General, Mr. Manuel Bordoy Verchili were elected.

The Croatian delegation would like to thank everyone for the great support we had during the presidency, from all the Units of the Secretary-General's office to fellow inspectors.

At any time, we could turn to you for help and advice on how to best fulfil our obligations, and we are grateful for that.

The Croatian delegation consisted of Mrs. Katarina Grgec, chairperson of the Board of Governors, Mrs. Nataša Lovrić, head of the delegation, Mr. Darko Tot, inspector for Secondary Cycle, Mr. Alen Hutinović, inspector for Nursery and Primary Cycles, and Mrs. Tea Bajan, chairperson of the Budgetary committee. During this year, there were personnel changes in the Croatian delegation, and Mr. Darko Tot and Mr. Alen Hutinović left the delegation. In their place Mr. Katarina Grgec (Inspector for Nursery and Primary Cycles ) and Nataša Lovrić (inspector for Secondary Cycles) were appointed.

Also, the Croatian delegation had the honour that Mrs. Vanda Mikšić, a professor from the University of Zadar, was the Chair of the BAC 2022. With her knowledge and extensive experience we are sure that she contributed to the successful implementation of the European Baccalaureate this school year.

In the report in front of you, we have made a cross-section of everything that has been done, from the priorities of the presidency to the work in committees and working groups.

We hope that this report will help in the further work of the European Schools.

## 1. Priorities under the Croatian Presidency

Priorities of the Croatian Presidency of the European Schools 2021-2022 relied on priorities of the former French presidency with the aim to continue with the important ongoing processes in European schools.

Priorities under the Croatian Presidency were divided into the Priorities concerning the administrative and financial structure of the European Schools and Priorities in the Pedagogical Area.

### 1.1. Priorities concerning the administrative and financial structure of the European Schools

The rest of the proposed changes of Article 30 and Article 62 were not approved and will be further discussed.

### Conclusion

With this report, as well as the priorities of the Croatian presidency, we want to continue the continuity of our predecessors, the French delegation, which was of great help to us when taking over the presidency.

We wish the Irish delegation that took over the presidency the best of luck in fulfilling their obligations as well as in implementing the ambitious and worthwhile priorities they have set.

## ***Introduction***

Because of the Covid-19 pandemic, the planning of the Inspectors' activities has proved more complex than for a normal year. The pandemic's unpredictable development and the uncertainty associated with travel restrictions and other health measures taken by national authorities have made it impossible for some Inspectors to plan their activities in advance. Consequently, this document gives only a patchy view of the activities to come.

The setting of the pedagogical objectives as well as the quality assurance of the type I European Schools are a responsibility of the different Boards of Inspectors:

- Board of Nursery and Primary Inspectors
- Board of Secondary Inspectors
- Joint Board of Inspectors.

The Pedagogical Development Unit of the Office of the Secretary-General supports and coordinates the (preparatory) activities of the Boards of Inspectors.

The purpose of the present document is to provide each new school year a transparent view of:

- The pedagogical needs as they were identified by the Boards of Inspectors, Joint Teaching Committee or Board of Governors
- The activities that are planned to satisfy these needs
- The results expected and actually achieved
- The plan of activities
- The results at the end of the school year.

In order to achieve the different goals within the organisational and budgetary resources, long-term and short-term planning is developed. At the beginning of each school year the Joint Board of Inspectors will decide on the prior needs to be tackled, the activities to be organised and the responsibilities to be taken on during the coming school year.

Projects that have come to an end (after 2 or 3 years maximum) will be replaced by new priorities. Also long-term issues can be resolved or be integrated into a smaller or larger target. According to the needs (and resources) the presidency can submit new priorities to the Joint Board of Inspectors.

## ***Priorities of the presidency 2021-2022***

**See document 2021-09-D-37**

The Boards of Inspectors provide pedagogical legitimacy for the European School system. Very often inspectors combine their work for the European Schools with other national duties. We wish to pay tribute to their passion and sustainable efforts by making their work behind the scenes more visible.

# I. Working Groups

The Working Groups are divided into several categories:

## ***1. Long-term planning***

The Boards of Inspectors take initiatives to respond to ongoing/recurrent pedagogical needs. The subsequent educational challenges are monitored in the long term by structural groups, thus with a mandate for an unlimited period.

## ***2. Reference groups***

Some issues need to be debated and followed up with different partners of the ES (e.g. parents, students). The Boards do not just give a specific mandate but also specify the group's composition.

## ***3. Short-term planning***

The Boards of Inspectors take initiatives to tackle issues that need a clear, concrete answer in the short term (max. 2-3 years), thus with a mandate for a limited period.

## ***4. Syllabuses***

The Boards of Inspectors are responsible for the development, approval and implementation of the syllabuses. The syllabuses are at the heart of the quality of education. They are revised regularly according to new educational objectives. A time frame of 1-2-3 years on average is foreseen depending on the newness of the syllabus to be developed or revised.

### ***4.1 Syllabuses' revision***

### ***4.2 Approved syllabuses implementation follow-up 2021-2022***

### ***4.3 Languages***

To support the implementation of any new syllabus this WG deals with the development of guidelines, commentaries, additional teaching and learning material.

### ***4.4 Other syllabuses for which a revision is planned in 2021-2022***

### ***4.5 Chronology of outdated syllabuses (before 2011) and not yet under revision (Proposal of the presidency 2021-2022: revision to be started if not started yet)***

## ***5. Other WGs – Coordinators' meetings***

## ***6. Working Groups' reports received at the Office of the Secretary-General***

The plan will be based on the calendar of activities and the availability of inspectors.</p> <p>The main tasks of the Central Planning Committee as defined in the document 2020-09-D-35 (Inspectorate of the European Schools) are the following:</p> <ul style="list-style-type: none"> <li>- Develop and execute planning procedures for all team activities.</li> <li>- Set up a forward planning for all team activities.</li> <li>- Compose well-balanced teams.</li> <li>- Distribute tasks proportionally and fairly in a balanced way over the year.</li> </ul> <p>These tasks are in addition to the statutory evaluations of seconded staff according to the current rules and timescale. The new planning procedures should take into consideration the workload faced by specific inspectors from the delegations which have the largest number of teachers.</p> <p>In general, the emphasis will be on team rather than individual activities. Tasks would not necessarily be subject- related or linked to a specific language section.</p> <p>The CPC is chaired by the President of the JBI or his/her nominated representative. <p><b>'Preparation of the 2021-2022 school year' Task Force</b></p> <p>The JTC mandated the Secretary-General to set up this Task Force.</p> <p>It is composed of a 'core group' and a 'consultative body'. A similar approach had already been adopted for the 'Preparation of the 2021 Bacculaureate session' Task Force.</p> <p>The core group is composed of:</p> <ul style="list-style-type: none"> <li>• the Deputy Secretary-General (Chair), the Head of the Pedagogical Development Unit, the Head of the Bacculaureate Unit and the Educational Support Coordinator (all working at the OSG);</li> <li>• a representative of the Directors;</li> <li>• a representative of the Directors of the Accredited European Schools;</li> <li>• a representative of the Deputy Directors for the nursery and primary cycle and a representative of the Deputy Directors for the secondary cycle;</li> <li>• six Inspectors, of the nursery and primary cycle and of the secondary cycle, representing the French Presidency and the future Croatian and Irish Presidencies (the 'Troika', with effect from 1 August 2021);</li> <li>• an Inspector responsible for Educational Support and Inclusive Education;</li> <li>• two representatives of the ISSC (one for the nursery and primary cycle and one for the secondary cycle).</li> </ul> <p>The members of the core group may consult other specialists, such as the schools' psychologists, support coordinators or educational advisers, and invite them to join them.</p> <p>The consultative body is composed of:</p> <ul style="list-style-type: none"> <li>• the Chair of the 2022 European Bacculaureate session;</li> <li>• two representatives of Interparents;</li> <li>• two representatives of CoSup;</li> <li>• two representatives of the European Commission.</li> </ul> <p>Experience has shown that the European School system should be prepared to face different scenarios for the coming school year also. However, it is commonly accepted that in all the schools, <i>in situ</i> teaching will be the most likely scenario with effect from the beginning of the 2021-2022 school year. Nevertheless, it will perhaps be necessary to meet the needs of 'vulnerable' pupils and of 'vulnerable' members of the teaching staff.</p> <p><b><u>Areas needing particular attention:</u></b></p> <p>Pupils may have suffered the effects of the COVID-19 pandemic to a greater or lesser extent and each pupil's situation must be taken into consideration.</p>	September 2021	Deputy Secretary-General	<b>0277</b>

## II. Continuous Professional Development

The Boards of Inspectors take broad responsibility in support of the professional development of the pedagogical staff (with exception of the management staff).

According to the agreed policy, training is provided in different ways to support the quality of teaching and learning.

As far as the planning of in-service training courses are concerned, priority will be given to:

- New syllabuses.
- Syllabuses with a new pedagogical policy.

### **III. Responsibilities in 2021-2022**

The Members of the Boards of Inspectors take responsibility for the follow-up on different subjects and pedagogical issues. The expertise of each inspector is most welcome in the Boards. In some subjects, expertise is not always available. The Boards would therefore like to encourage the delegations to appoint inspectors with diverse areas of expertise.
