Question n°1

Concerning the tender for translations in the OSGES, the test provided in Annex 7 refers to the language combination EN-DE, DE-EN.

In my case (XXXX), my combination of languages is: EN to ES and FR to ES, so the above mentioned test does not match with my capabilities; in my situation, as in that of other individual translators, targeted tests in accordance with our respective capacities would be necessary.

\*\*\*

Answer n°1

- As stated in the specification, the tender is not divided into lot and the ES needs translation at least from and to all official EU languages.  
The test is required for the translation language combination EN-DE, DE-EN only.
